PROFESSIONAL WORK EXPERIENCE

Project Manager   **January 2021 - February 2021**
African Leadership University Projects courses – Kigali, Rwanda
- Collaborated with a team of 4 to plan and execute community-building programs to build and ensure a circular economy and positive living environment for 300+ students and ALU stakeholders.
- Developed a prototype for our recommended Mobile App by providing a preliminary visual mock-up and presented a narrative flow of presentation slide deck to the circular economy team of experts.

Project Manager   **April 2021 - May 2021**
African Leadership University Projects courses – Kigali, Rwanda
- Led a team of 4 to develop a realistic marketing plan for a transport company in Rwanda that wanted to increase the awareness of its new products by 10% in the Rwandan environment by optimizing its website content by use of SEO.
- Communicated with the company's CEO and developed content for a pitch that illustrated the company's marketing strategies, month per month.

Global Ambassador   **August 2021 - September 2021**
Loveonn Creatives– Mount Gambier, South Australia
- Created and written 20+ articles about several topics that could engage and empower youth and women worldwide, for example, technology, education and others.
- Carried out research about improving tech products of the company and provided a narrative flow of slides that showed the recommended strategies, i.e., a computer program used to track feedback from users.
- Analysed data from 10+ sources, by using excel (companies from India), to enhance better decision making.

EXTRACURRICULAR ACTIVITIES

ALU Prentice Championship, African Leadership University   **July 2021 - August 2021**
- Participated and won ALU Prentice, a competition involving four projects in a row, where the fourth is the final.
- Developed a recommendation to an agriculture firm on expanding their business through research and analysing different data from the company and analysing the market.
- Presented a narrative flow of slides of an agribusiness company startup requirements asking for $9000 grants from the investors to start operating.
